

BIG MAD DRIP

AI UNIFORM & LOGO

PROMPT PLAYBOOK

A reusable prompt system for creating bold custom uniforms, team logos, product proofs, athlete mockups, matching gear, and revisions across every major sport.

Built around the Big Mad Drip design workflow:

Bold. Custom. High-definition. Production-minded. Never basic.

Use the fill-in fields throughout this guide to turn a team name, logo, color palette, and sport into a complete visual collection.

1. The Big Mad Drip Prompt Formula

For consistent results, build prompts in layers. The strongest prompts describe the product first, then the team identity, design language, placement, athlete or presentation style, and finally the output quality.

1	SPORT / PRODUCT	Football uniform, flag compression set, basketball jersey, bag, glove, logo, etc.
2	TEAM IDENTITY	Team name, mascot, city, number, supplied logo.
3	COLOR HIERARCHY	Primary color, secondary color, accent color; say which must dominate.
4	DESIGN LANGUAGE	Aggressive, clean, futuristic, claw marks, honeycomb, lightning, smoke, geometric, etc.
5	GARMENT DETAILS	Sleeves, hood, neckline, compression/loose fit, shorts/pants, number placement.
6	MODEL / POSE	Male/female/youth athlete, appearance, holding/kicking/throwing/serving a ball.
7	PRESENTATION	White studio background, front/back proof, isolated product, transparent PNG.
8	QUALITY LOCK	High-definition, crisp edges, realistic fabric, professional sportswear mockup.

Core rule: when revising an existing design, explicitly say what must change and what must stay unchanged. This helps preserve the logo, face, pattern, layout, and proportions.

Universal Master Uniform Prompt

Create a premium custom [SPORT] uniform for [TEAM NAME]. Use [PRIMARY COLOR] as the dominant main color, [SECONDARY COLOR] as the secondary color, and [ACCENT COLOR] for sharp accents. Incorporate the supplied [TEAM LOGO / MASCOT] prominently on the uniform. Add [PATTERN / GRAPHIC LANGUAGE] throughout the design in a bold but professional way. The uniform should include [GARMENT DETAILS: sleeve length, neckline, hood/no hood, compression/loose fit, shorts/pants]. Place player number [NUMBER] on [PLACEMENT]. Add [CITY / TEAM WORDMARK] where appropriate. Make the design look like premium modern custom sportswear made for competition - aggressive, clean, athletic, and visually distinctive. Use realistic performance fabric, sublimated graphics, crisp seams, accurate proportions, and high-definition detail. Present it on [MODEL DESCRIPTION / MANNEQUIN / FLAT PRODUCT] in [POSE]. Use a clean white studio background. Keep the full uniform visible from head to toe when using an athlete. No extra logos, no random text, no watermarks.

2. Logo Creation System

Create the logo before the uniform when a team does not already have a strong identity. Ask for a clean primary mark first, then build secondary marks and wordmarks.

Aggressive Mascot Logo

Create a bold high-definition sports logo for a team named [TEAM NAME]. The mascot is a [MASCOT]. Use [PRIMARY], [SECONDARY], and [ACCENT] as the only major colors. Make the mascot look powerful, competitive, intimidating, and athletic without becoming overly complicated. Use sharp professional vector-style linework, strong outlines, clean negative space, balanced symmetry, and a modern elite sports branding aesthetic. Integrate the words "[TEAM NAME]" in a custom athletic wordmark that feels like part of the logo. The logo must reproduce clearly on jerseys, hats, bags, gloves, social graphics, and embroidery. Center the logo on a transparent background. No mockup, no shirt, no scenery, no watermark. High-definition isolated logo only.

Clean Modern Team Logo

Design a clean modern sports identity for [TEAM NAME] using [COLORS]. Build the mark around [MASCOT / LETTER / SYMBOL]. Make it bold enough for a football helmet or jersey chest but simple enough to remain readable at small sizes. Use strong geometry, professional typography, crisp vector-like edges, and a premium national-level sports brand feel. Transparent background. Isolated logo only.

Logo Variation Prompt

Using the same team identity, colors, mascot, and overall visual language, create a secondary logo for [TEAM NAME]. Do not simply duplicate the primary logo. Make this version suitable for sleeves, shorts, hats, gloves, and small merchandise placements. Keep it clean, recognizable, and consistent with the original brand.

3. Sport-by-Sport Uniform Prompts

Flag Football / 7v7

Create a premium custom 7v7 flag football compression uniform for [TEAM NAME]. Use [PRIMARY] as the main color with [SECONDARY] and [ACCENT] details. Incorporate the supplied team logo and [PATTERN] across the compression top and matching compression shorts. Make the top [SLEEVE TYPE] with [CREW/V-NECK/HOOD]. Add number [NUMBER] to the chest/back and left leg of the shorts. Add matching popper flags at the waist. Show a [MALE/FEMALE/YOUTH] athlete with an athletic build holding a football in a confident game-ready pose. Match the gloves, cleats, and optional headgear to the uniform. White studio background, full body, realistic performance fabric, crisp sublimation, high-definition.

Tackle Football

Create a full tackle football uniform for [TEAM NAME] using [COLORS]. Include a fitted game jersey over shoulder pads, football pants, matching socks, gloves, cleats, and helmet. Incorporate [LOGO] and [PATTERN] without overcrowding the design. Number [NUMBER] must be highly readable on the front, back, and shoulders. Show a powerful [MODEL] athlete [POSE: holding / throwing / pointing / flexing with] a football. Make every accessory coordinate with the uniform. White studio background, professional sports campaign quality, full-body high-definition.

Basketball

Create a premium sleeveless basketball uniform for [TEAM NAME]. Use [PRIMARY] as the dominant color with [SECONDARY] and [ACCENT] trim. Place the team wordmark across the chest and number [NUMBER] below it. Carry [PATTERN] subtly through the jersey side panels and matching basketball shorts. Add the team logo on the shorts. Show a [MODEL] basketball athlete [POSE] with a basketball. Modern athletic cut, realistic mesh/performance fabric, crisp sublimation, white studio background, high-definition.

Baseball

Create a premium custom baseball uniform for [TEAM NAME] using [COLORS]. Design a button-front baseball jersey with [SHORT/LONG] sleeves, matching baseball pants, belt, socks, cleats, and cap. Place [TEAM WORDMARK] across the chest and number [NUMBER] on the back. Use [PATTERN] as a controlled sublimated accent. Put the team logo on the cap. Show a [MODEL] baseball player [POSE] holding a bat or baseball. Clean white studio background, realistic fabric and stitching, high-definition.

Softball

Create a premium custom softball uniform for [TEAM NAME] using [COLORS]. Use a modern athletic [JERSEY STYLE] with matching softball pants/shorts and coordinated socks, belt, cleats, and optional visor. Integrate [LOGO], number [NUMBER], and [PATTERN]. Show a [FEMALE MODEL DESCRIPTION] athlete [POSE] with a softball, glove, or bat. Make the design bold, fast, and competitive while remaining clean and wearable. White studio background, realistic performance fabric, high-definition.

Soccer

Create a premium short-sleeve soccer kit for [TEAM NAME] using [COLORS]. Include a fitted soccer jersey, matching shorts, knee-high socks, and coordinated cleats. Place the team crest on the left chest, number [NUMBER] on the jersey and shorts, and integrate [PATTERN] through the body and sleeves. Show a [MODEL] soccer athlete [POSE: holding / dribbling / kicking] a soccer ball. Keep all footwear and socks matched to the kit. White studio background, realistic fabric, high-definition.

Volleyball

Create a premium sleeveless volleyball uniform for [TEAM NAME] using [COLORS]. Include a fitted performance jersey and matching volleyball shorts. Integrate the supplied team logo, number [NUMBER], and [PATTERN]. Show a [FEMALE/MALE MODEL] volleyball athlete [POSE: holding / serving / preparing to spike] a volleyball. Modern competition fit, realistic stretch performance fabric, crisp sublimation, white studio background, full-body high-definition.

Lacrosse

Create a premium custom lacrosse uniform for [TEAM NAME] using [COLORS]. Include a sleeveless/short-sleeve lacrosse jersey, matching shorts, gloves, cleats, and appropriate protective gear. Integrate [LOGO], number [NUMBER], and [PATTERN]. Show a [MODEL] lacrosse athlete holding a lacrosse stick in an aggressive game-ready pose. Keep the uniform readable and coordinated. White studio background, realistic fabric and equipment, high-definition.

Track & Field

Create a premium track and field uniform for [TEAM NAME] using [COLORS]. Include a fitted performance singlet/crop top and matching running shorts/compression bottoms. Integrate [LOGO], team wordmark, and [PATTERN] in a sleek aerodynamic layout. Show a [MALE/FEMALE] track athlete in a powerful sprint-start or running pose. Match footwear to the team palette. White studio background, elite competition look, high-definition.

Cheer

Create a premium competition cheer uniform for [TEAM NAME] using [COLORS]. Use [LOGO] and [PATTERN] to create a bold, clean, coordinated design with strong team branding. Include [TOP STYLE], [SKIRT/SHORTS], and matching accessories where appropriate. Show a [MODEL] cheer athlete in a confident competition pose. Keep the design athletic and performance-focused. White studio background, realistic fabric, crisp details, high-definition.

4. Home, Away & Alternate Colorways

Once the first design is approved, preserve the design language and change only the color hierarchy.

White Away Version

Redo this exact uniform as the away version. Keep the same logo, pattern, number placement, garment cut, model, proportions, and overall design. Make WHITE the dominant main color. Use [TEAM PRIMARY] and [TEAM SECONDARY] only as accents. Do not redesign the uniform. Do not change the athlete's face or pose unless requested. Keep every other detail the same. High-definition, clean white studio background.

Alternate Color Version

Create an alternate colorway of this exact approved uniform. Change the dominant color from [CURRENT] to [NEW MAIN COLOR]. Preserve the logo, pattern, typography, number placement, garment construction, and overall layout exactly. Rebalance [SECONDARY/ACCENT COLORS] so the uniform remains readable and premium. Do not introduce new graphics.

Back View

Show the back of this exact uniform. Keep the design, colors, fabric, athlete, and proportions consistent with the approved front view. Add player name "[PLAYER]" across the upper back and number [NUMBER] centered below it. Continue the approved pattern naturally onto the back and sleeves. Do not redesign anything else. White studio background, high-definition.

5. Product Proof & Production Prompts

Uniform-Only Proof

Remove the athlete and show only the complete [SPORT] uniform as a clean product proof. Display the front and back clearly on a white background. Preserve the exact approved colors, logo, pattern, number placement, neckline, sleeves, shorts/pants, and proportions. No body, no mannequin face, no props, no scenery. High-definition e-commerce/product-development presentation.

Pattern Extraction

Isolate and recreate only the graphic pattern used on this uniform. Remove the athlete, garment seams, logos, numbers, names, and background. Show the pattern flat, clean, seamless-looking, and high-definition so it can be referenced for sublimation artwork. Preserve the exact shapes, visual rhythm, and color relationships of the approved design.

Transparent Logo Output

Show only the approved logo. Remove the uniform, athlete, mockup, shadows, and background. Preserve the logo exactly. Clean the edges, improve clarity, and output it as a high-definition isolated graphic on a transparent background. Do not redesign the logo.

6. Matching Gear Prompts

Duffle / Backpack

Create a premium custom [DUFFLE BAG / BACKPACK] for [TEAM NAME] using the exact approved uniform colors, logo, and pattern. Make [PRIMARY] dominant. Place the team logo prominently and carry the uniform graphic language across the bag panels without making it cluttered. Realistic product mockup, white background, high-definition.

Football Gloves

Create matching football gloves for [TEAM NAME] using the exact approved uniform colors and graphic pattern. Place the team logo so it becomes visible and recognizable across the gloves. Athletic performance construction, realistic grip texture, clean product view, white background, high-definition.

Sleeves / Headgear

Create matching [ARM SLEEVES / SOFT-SHELL HEADGEAR] using the approved team logo, colors, and pattern. The gear must look like part of the same uniform collection. Keep branding readable and proportions realistic. White product background, high-definition.

Hat / Visor

Create a premium [SNAPBACK / BASEBALL CAP / VISOR / BUCKET HAT] for [TEAM NAME]. Use the approved logo and team colors. Keep the design bold but clean enough for embroidery. Show a realistic product mockup on a white background, high-definition.

Warmup / Jogger Set

Convert the approved uniform design language into a matching performance warmup/jogger suit for [TEAM NAME]. Include a [JACKET/HOODIE] and matching joggers. Continue the approved colors and pattern naturally across the garments. Use the team logo on the chest and leg. White studio background, high-definition.

Coach Apparel

Create a matching coach [POLO / DRI-FIT SHIRT / LONG-SLEEVE TOP / HOODIE] for [TEAM NAME]. Use the team colors and approved pattern in a more professional, restrained layout than the player uniform. Place the team logo on the chest and add 'COACH' where requested. Pair with black or matching coach shorts/pants. High-definition white studio presentation.

7. Athlete & Action-Shot Prompt Add-Ons

Attach one of these lines to a uniform prompt after the design description.

- Show a Black female athlete with an athletic build, confident expression, and realistic proportions.
- Show a dark-haired Hispanic/Latina female athlete with an athletic build and a strong competitive pose.
- Show a white male athlete with blond hair and an athletic build.
- Show a youth athlete with age-appropriate proportions and a confident game-ready stance.
- Have the athlete hold the football and point directly toward the camera.
- Show the athlete throwing the football with realistic throwing mechanics.
- Show the soccer player actively kicking the ball.
- Show the volleyball player serving the ball with an athletic overhead motion.
- Show the athlete flexing while holding the ball, with the full uniform still visible.
- Keep the athlete's face exactly the same as the reference image; change only the requested uniform details.

8. Revision Prompt Library

The fastest way to revise an approved design is to use short, surgical instructions.

Change main color

Keep everything exactly the same. Change only the main uniform color to [COLOR]. Preserve the logo, graphics, pattern, number, athlete, pose, fit, and all other details.

Swap logo

Replace only the current logo with the supplied [NEW LOGO]. Match its placement and scale to the existing design. Do not change the colors, pattern, athlete, uniform cut, or any other element.

Remove number

Remove number [NUMBER] from [LOCATION]. Keep every other part of the image exactly the same.

Continue sleeves

Continue the existing uniform pattern naturally across both sleeves so the sleeves feel fully integrated with the body design. Do not change anything else.

Match accessories

Make the cleats, socks, gloves, and accessories coordinate with the approved uniform colors and pattern. Keep the uniform itself unchanged.

Remove hood

Remove the hood and convert the top to a clean [CREW NECK / V-NECK]. Keep the exact same pattern, colors, logo, fit, and athlete.

Add hood

Add a performance hood to this exact design and continue the approved pattern onto the hood. Keep everything else unchanged.

Sleeveless

Convert this exact top to a sleeveless athletic cut. Preserve all colors, graphics, logo placements, numbers, and proportions.

Improve clarity

Increase the visual clarity and apparent resolution of this exact design. Sharpen edges, fabric detail, logos, numbers, and graphics without redesigning or changing the content.

Name correction

Change only the displayed name from '[OLD NAME]' to '[NEW NAME]'. Preserve the font style, position, size, color, character, face, uniform, and every other detail.

9. Big Mad Drip Full Collection Master Prompt

Build a complete premium sportswear collection for [TEAM NAME] in the sport of [SPORT]. Use [PRIMARY] as the dominant color, [SECONDARY] as the secondary color, and [ACCENT] as the accent. Use the supplied [LOGO] as the official team identity. The visual theme is [THEME / PATTERN]. Create a cohesive collection consisting of: 1. Primary home uniform. 2. White-based away uniform. 3. Alternate uniform in [ALT COLOR]. 4. Front and back product proof. 5. Matching team duffle bag or backpack. 6. Matching gloves / sleeves / headgear where appropriate. 7. Matching hat or visor. 8. Matching warmup/jogger set. 9. Matching coach apparel. All products must clearly belong to the same collection. Preserve consistent logos, colors, typography, pattern language, and premium athletic styling. Avoid generic stock-uniform aesthetics. Make the collection bold, custom, competitive, and visually recognizable as a complete team brand. Use realistic materials, accurate garment construction, crisp sublimated graphics, clean logo reproduction, and high-definition professional product presentation. Use clean white studio backgrounds unless an action-shot version is specifically requested.

10. Quick Fill-In Design Brief

TEAM NAME	_____
SPORT	_____
MASCOT / LOGO	_____
PRIMARY COLOR	_____
SECONDARY COLOR	_____
ACCENT COLOR	_____
MAIN THEME / PATTERN	_____
HOME MAIN COLOR	_____
AWAY MAIN COLOR	_____
ALTERNATE MAIN COLOR	_____
SLEEVE / NECK / HOOD	_____
FIT	Compression / Fitted / Loose / Other
PLAYER NUMBER	_____
PLAYER NAME	_____
MODEL	Male / Female / Youth / Product only
POSE	_____
MATCHING GEAR	_____

Final quality lock to add when needed: "Do not add random text, extra logos, unexplained graphics, watermarks, or unnecessary accessories. Keep all spelling exact. Preserve the supplied logo faithfully. Make the final image clean, realistic, high-definition, and suitable for a professional custom sportswear presentation."

BIG MAD DRIP - LOOK READY BEFORE THE GAME STARTS.
